## Hunt with Confidence

### Dakota Confidence Arrow Holders

Dakota Archery Products, Inc. has developed some new and innovative products for bowhunters and 3-D shooters that will enable you to experience the advantage of being able to concentrate on your shot and "Hunt with Confidence." Arrow fall-off with shoot-through and some drop away arrow rests happens quite often in bowhunting conditions, whether it is while still hunting, in a tree stand, or from a ground blind. The patent pending **Dakota Confidence Arrow Holder** prevents arrow fall-off on most shoot-through and some drop away arrow rests and is presently available in eight different models.

The **Dakota Confidence Arrow Holder** has the following advantages:

- Prevents arrow from fall-off. Bow can be turned in any direction (even upside down) without arrow falling off the rest
- Nock arrows quickly and quietly without interference from holder or rest.
- Quiet and does not affect arrow flight.
- Adjustable release travel and tension, and holder releases when you start your draw.
- Fits both right- and left-hand rests.

**Dakota Confidence Arrow Holder 001** for New Archery Products QuickTune 800, 1000 and 3000, HHA Optitune 200, 400 and TL-3 arrow rests

**Dakota Confidence Arrow Holder 002** for Mathews Micro-Rest, Golden Key 3-D Rover, 3-D Silent Rover and Platinum Premier arrow rests

**Dakota Confidence Arrow Holder 003** for Bodoodle Bullet, Pro-Lite, Conquest I, Conquest II, Timberdoodle, HP Timberdoodle and TAR200 Timberdoodle, HHA Techniglide TL-1 and TL-2 arrow rests

**Dakota Confidence Arrow Holder 004** for Golden Key Speed Set Hunter (formerly EZ-Tune 100), Speed Set Rest, Infiniti, Golden Premier and TM Hunter style arrow rests with or without groove cut between launchers, HHA 1500 Series, HHA TP Series and HHA Optiflite, Cobra Sonic, Super Sonic and Frontiersman arrow rests

**Dakota Confidence Arrow Holder 005** for Tiger Tuff arrow rests with D'Longhorn or Big Claw launchers, Golden Key Tough Man, PSE Mongoose, Champion Pro Hunter 100, 200 and 300, and Scout Mountain Turbo Launch arrow rests

**Dakota Confidence Arrow Holder 007** for Montana Black Gold Trap Door arrow rest

**Dakota Confidence Arrow Holder 008** for Schaffer MAT-1 arrow rest

**Dakota Confidence Arrow Holder 015** for Scout Mountain Magna Launch arrow rest

## Dakota Confidence Quiver Extender

The patent pending **Dakota Confidence Quiver Extender** for the Mathews 2-piece nondetachable quiver keeps your nocks from extending below the cam and out of the dirt when you set your bow down. Two models of the extender raise the quiver hood 4 inches for most Mathews bows, and 2 models raise the quiver hood 5 inches for the short SQ2 bow. The extender also centers your arrows vertically on your bow improving the appearance while helping to better balance the quiver on the bow. Personalized engraving with name--up to 15 characters- and choice of elk, whitetail, antelope, or mule deer are available on the 2 engraveable models of the **Dakota Confidence Quiver Extender** for those who desire a little touch of class on their equipment.

Four-inch standard anodized aluminum **Dakota Confidence Quiver Extender 011** for Mathews nondetachable two-piece quiver

Five-inch standard anodized aluminum **Dakota Confidence Quiver Extender 012** for Mathews nondetachable two-piece quiver

Four-inch engraved anodized aluminum **Dakota Confidence Quiver Extender 013** for Mathews nondetachable two-piece quiver (personalized engraving with name - up to 15 characters - and choice of elk, whitetail deer, antelope or mule deer)

Five-inch engraved anodized aluminum **Dakota Confidence Quiver Extender 014** for Mathews nondetachable two-piece quiver (personalized engraving with name - up to 15 characters - and choice of elk, whitetail deer, antelope or mule deer)

elk      mule deer      whitetail deer      antelope

**Personalized engraving** with name up to 15 characters and choice of elk, whitetail deer, antelope or mule deer

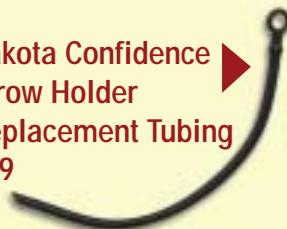

## Dakota Confidence Fall-Off Bumper

**Dakota Confidence Fall-Off Bumper 010** - patent pending, prevents your arrow from falling off to the inside of your arrow rest, between the launchers and riser where you might not notice it. The **Dakota Confidence Fall-Off Bumper** works with most bow and arrow rest combinations.

- Prevents arrow from falling off to the inside of a shoot-through arrow rest.
- Adjustable to automatically place arrow back on the rest.
- Does not affect arrow flight.
- Works with most shoot-through arrow rests.

## Dakota Confidence 7 Arrow Quiver Conversion Kit

The patent pending **Dakota Confidence 7 Arrow Quiver Conversion Kit** converts the Mathews 5 arrow two-piece nondetachable quiver into a 7 arrow quiver. Many bowhunters have indicated they would like to have the option to carry Judo points, a blunt tip, "P" Shooter shoot-a-scent arrow or other specialty arrows and still have five broadhead arrows in their quiver. Limiting yourself to just three broadheads may occasionally leave you with an empty quiver if you risk carrying two specialty points and only three broadhead arrows. It is supposed to take one shot, but we all know the reality that additional arrows are often needed in the field. Using Judo points to practice, or stump shooting, while walking to or from a tree stand, back to camp or back to a vehicle makes the walk more enjoyable and provides unparalleled opportunity for the bowhunter to hone their skill. Our new conversion kit provides the needed space to carry additional arrows and lets you continue to "Hunt with Confidence!"

## Seven Laws of Bowhunting

1. There is no such thing as a sure thing in bowhunting.
2. In bowhunting, anything that can go wrong will go wrong; and then something else will go wrong.
3. Sooner or later — usually sooner — the animal you are hunting will become suspicious of your intentions.
4. There won't be any reason for it, it just happens — nature always sides with the hidden flaw.
5. Dumb luck will never change a hopeless situation into a shot opportunity — unless you aren't expecting it!
6. If everything seems to be going well and you think you are going to get a shot, you have obviously overlooked something.
7. A mistake isn't necessarily a bad thing — if you learn from it and avoid making the same mistake a second time.

Dakota Archery Products, Inc.,  
President - Dun Hulm

Currently, **Dakota Archery Products, Inc.**, offers the Dakota Confidence Arrow Holder for over 50 different arrow rests, with additional compatibility coming soon. In addition to the Arrow Holders and Dakota Confidence Fall-Off Bumpers, the company also produces Quiver Extenders for the Mathews two piece nondetachable quiver along with a conversion bracket to allow the quiver to hold seven arrows instead of five. The newest products in the company's line include Light Brackets for selected fiber optic sights and Targeting Systems for consistent practice. — *Dealer & Distributor inquiries welcomed* —
